RESOURCE PERSON: Scott B. Frizzie

Board members have indicated a high level of interest in focusing Board meetings on policy discussions rather than routine business. This panel presentation is a move in that direction by providing an opportunity to hear from Sheriff Thomas Ferrara and Probation Chief Christopher Hansen about the services and programs that are provided to adult offenders in Solano County. At the July Board meeting, representatives from the California Department of Corrections and Rehabilitation will provide information about offender programs and services offered at the state level. In the future, a similar panel format will be used to cover other topics of interest to the Board and its mission such as juvenile offender programs and services, evidence based practices, data and research, etc.
